# Visitor Feedback

Visitors are satisfied with the 90th CMEF

Visitors expressed intention to visit CMEF again

“I found the CMEF to be very informative as the scale of the show is quite large. It was very useful for the organizers to take us to the sections of interest to us. The “modern traditional” medicine area is interesting as it is an area that blends different type of knowledge. I would like to learn more about the areas that the other foreign delegations (such as the UK, Netherlands, etc.) are focused on in this market to see how the show could be better used by Canadians in the future.”

Mr. Mark Mylvaganam  
Consul, Trade Commissioner  
Consulate General of Canada, Guangzhou

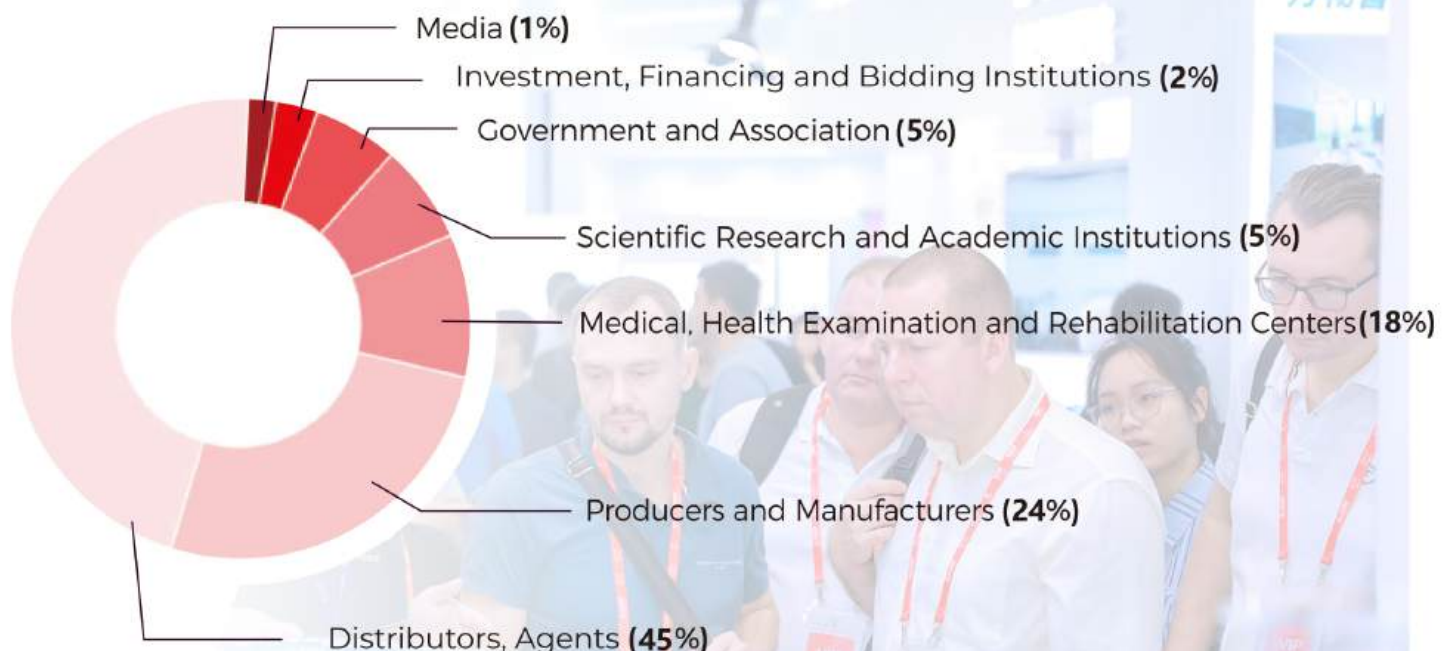

“Events like CMEF provide a vital platform for networking and knowledge exchange, which fosters growth and development in both local and international markets.”

“Once a got over the size of the venue as it was my first time in China. I found the CMEF a great experience with a great variety of products. The interaction was very comforting professionally and respectful.”
