Visitor Profile

Why CMEF

- 1 Chance to discover a **comprehensive showcase of next-generation medical equipment**
- 2 **Face-to-face networking opportunities** with peers and potential partners
- 3 **Glimpse into the future of healthcare** through insightful sessions and on-site events
- 4 **Plenty of add-on values** beyond the booth from **CMEF-GBO program**
- 5 Experience **live demonstrations** and interact directly with exhibitors from around the world

WeTalk Global Stage

A stage to showcase your company's latest innovations, share policy insights, explore global industry trends, and more.

Business Matchmaking

Unlock opportunity for your business by connecting with the right partners, clients, and investors through our tailored match-making service.

Distributor Alliance Club

A renowned destination for professionals to network and explore new opportunities during exhibition period.

International Component Manufacturing and Design Show (ICMD) is a key event for the medical component manufacturing sector, focusing on the upstream market. It takes place alongside the China International Medical Equipment Fair (CMEF), which showcases a wide range of technological innovations and solutions throughout the medical industry. Together, these events provide valuable insights and networking opportunities for professionals in the field.

Why ICMD

- 1 Discover a wide range of innovative medical components
- 2 Unique Bridge between medical device manufacturers and upstream suppliers of components and service
- 3 Face-to-face networking opportunities peers and potential partners
- 4 Explore the future of the health industry through engaging sessions and on-site events

More than **95%** of exhibitors believe that ICMD is an excellent platform for exchanging industry information. Moreover, the coordination and interaction with CMEF makes ICMD an unmissable stage to achieve brand promotion to the accurate target audience and cooperation among the potential partners.

VISITOR PROFILE

After more than ten years of development, **CRS/CECN/Life Care Show** has become the recognized largest comprehensive service platform in the field of professional rehabilitation in the Asia-Pacific region, integrating new product release, transaction, connection, brand communication, and academic exchange, and is also the preferred platform for many rehabilitation and elderly care enterprises to enter the Chinese market.

At the exhibition site, you will see the development status of cutting-edge technologies in rehabilitation, elderly care, and home care medicine. The organizer works with nearly a thousand participating brands to provide the whole industry chain product technology and services for medical, health care, and grass-roots health institutions, distribution agents at all levels, retail channels, and end consumers, helping the global rehabilitation, elderly care and personal health industry to achieve high-quality development.

- ✔ Household Medical Supplies
- ✔ Sleep Aid Products
- ✔ Sports Rehabilitation Equipment
- ✔ Chinese Medicine Equipment
- ✔ Hospital Construction and Logistics Management

“

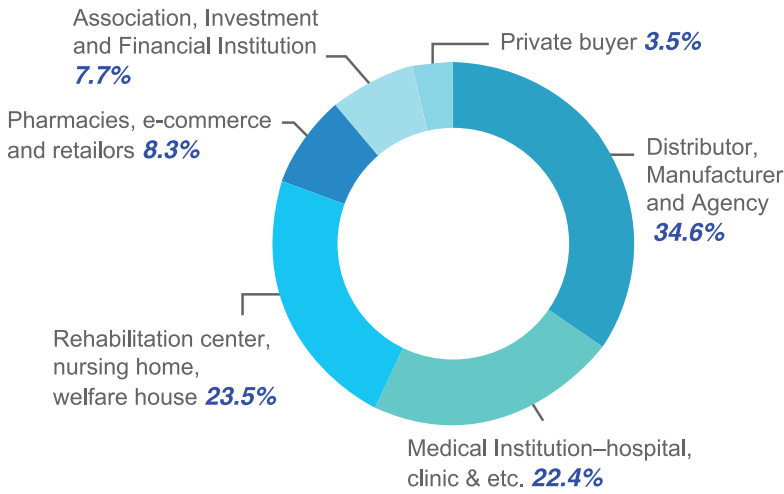

For foreign brands that have just entered the Chinese market, attending a trade show is definitely the fastest and most direct way to expose our brand to the public, and as the most influential and well-known trade show in the healthcare industry, we have gained a lot of high-quality customers and partners at CMEF - CRS established contacts with a lot of governmental organizations and media and learned about the latest industry news in the expo. We can't wait to participate in the next CMEF!

EXHIBITOR QUOTES

Visitor Analytics

Visitors by position

The Animal Health China (AHC) was initiated by CMEF in 2022. By working with experts in the pet medical care industry, AHC aims to promote the development of new medical equipment, construction of specialty systems, continuing education for pet physicians, and branding of pet clinics.

With the booming economy and rising incomes as well as changes in population structure and pet owner's perception, the pet industry in China is entering an unprecedented golden age. This market in China is ready to see an unparalleled explosive growth with the next 5 to 10 years, a great opportunity for the industry. Pet medical care in China will be a trillion-dollar market, and it is critical for pet medical enterprises seize the opportunity and realize diversified development.

- Pet food
- Health products
- Prescription food
- Additives

Pet Clinic Management Services

- Management software
- water treatment equipment
- Internet-based pet consultation
- IT software management

VISITOR PROFILE

Emergency, Rescue & Safe China was introduced by CMEF in 2022 as a response to the call of the times and the emergency and rescue market. The platform showcases new products in the emergency and rescue industry, shares industry insights from experts, association leaders, and media professionals, sets trends with evaluations across ten categories.

As 5G+, Internet of Things, AI, and other cutting-edge technologies continue to be widely adopted and supported by national policies, the concepts of smart cities and intelligent emergency response have been redefined. This shift has attracted significant capital investment towards emergency response industries, creating a range of promising opportunities.

Exhibition & Conference

The Health Industry Series
ASEAN

tHIS Connect Healthier Tomorrows

2025
June 9-11

**KLCC · Kuala Lumpur
Malaysia**

tHIS ASEAN, hosted by Reed Sinopharm Exhibitions in Kuala Lumpur, Malaysia, is a major international B2B event focusing on the healthcare, pharmaceutical and hospital construction sectors. It serves as a strategic extension of globally recognized exhibitions CMEF, PHARMCHINA, and CHCC, offering a platform for showcasing global innovations, tech advancements, and business networking.

As a key platform for technology, product launches, business networking, and market insights, THIS ASEAN is ideal for companies looking to enter the Southeast Asian market. The event will attract hundreds of industry leaders from various sectors, providing excellent opportunities for collaboration and understanding regional trends. The exhibition aims to connect with Southeast Asia's healthcare professionals and industry leaders, driving development and enhancing global health.

Event Highlights

Discover Cutting-Edge Innovation

Dive into an unparalleled showcase of groundbreaking products and services across the healthcare, pharmaceutical and hospital construction sectors.

Unlock Market Insights

Engage directly with industry leaders and experts to gain valuable perspectives on emerging trends, shifting consumer demands, and evolving policies.

Accelerate Business Growth

Leverage exclusive face-to-face networking opportunities with RSE's extensive distributor network and APHM's precise hospital resources to forge valuable new connections.

Maximize Brand Visibility

Showcase your products and services to a targeted audience of industry professionals and decision-makers. Benefit from RSE's global resources to enhance brand visibility.
